Professional Summary

Data-focused Computer Science graduate with a specialization in Data Science and a strong foundation in Python, SQL, Pandas, NumPy, Power BI, and databases. Experienced in developing database-driven applications, dashboards, APIs, and data-oriented workflows across e-commerce, education, AI, and enterprise platforms. Strong analytical and problem-solving abilities with a technical background in software development and experience working with structured application and business data. Seeking opportunities in Data Analyst, Junior Data Analyst, and Business Analyst roles.

Technical Skills

- **Data Analysis:** Python, Pandas, NumPy, SQL, Data Cleaning, Data Exploration
- **Data Visualization:** Power BI
- **Programming:** Java, JavaScript
- **Databases:** MongoDB
- **Web & Application Development:** ReactJs, NodeJs, ExpressJs, Tailwind CSS
- **Tools & Technologies:** Git, REST APIs, n8n

Experience

AI Engineer - 1 ***April 2026 – Present***
Prospire Technology Services *Jodhpur, Rajasthan*

- Contributing to enterprise applications involving data-driven dashboards, APIs, databases, and structured business workflows.
- Working with application data and frontend data flows using React, TanStack Query, and REST-based services.
- Collaborating on enterprise platforms where structured data supports monitoring, reporting, workflows, and operational decision-making.

Full Stack Developer Intern ***June 2025 – March 2026***
Ideaforage Innovations *Jodhpur, Rajasthan*

- Developed a MERN-based e-commerce platform involving product, customer, order, payment, and delivery data.
- Designed and managed database-backed workflows for products, users, orders, and delivery operations.
- Built an administrative dashboard for monitoring and managing business and operational data.
- Worked with APIs and structured application data to support business workflows and operational requirements.

Full Stack Developer Intern ***June 2025 – Jan 2026***
EntrePi *Remote*

- Developed multiple microlearning and assessment platforms involving student, teacher, assessment, and curriculum data.
- Built role-based dashboards and data-driven workflows for students, teachers, and administrators.
- Implemented AI-assisted question and assessment generation mapped to CBSE curriculum and syllabus.
- Integrated n8n automation workflows for content and question generation.
- Developed platforms including SourPickle, Stocks & Ladder, and Geeta, working with structured application data across multiple use cases.

Web Developer ***May 2024 – June 2024***
Virtual Labs, IIT Roorkee *Roorkee*

- Developed an Electrical Circuit Design Lab enabling interactive simulations for cross-departmental academic use.
- Built interactive simulations using HTML, CSS, JavaScript, jsPlumb, Bootstrap, and SweetAlert.

Projects

Toynik – E-commerce Platform *MERN Stack, MongoDB*

- Developed a full-scale e-commerce platform involving product, customer, order, payment, and delivery data.
- Built an admin panel for managing and monitoring products, users, orders, and operational workflows.

Stocks & Ladder *MERN Stack*

- Developed a learning platform focused on NSE stocks and stock-market concepts.
- Implemented data-driven learning features around stock information and market-related concepts.

Mitochondria *MERN Stack*

- Developed a microlearning ecosystem involving student, assessment, question, and curriculum data.
- Implemented AI-assisted assessment generation and role-based application workflows.

Education

JIET Group of Institutions ***September 2022 – March 2026***
B.Tech Computer Science, Specialization in Data Science **(CGPA: 9.81)** *Jodhpur, Rajasthan*

Laxmi Devi Mundra Public School ***April 2021 – April 2022***
Senior Secondary **(89.8%)** *Jodhpur, Rajasthan*

Laxmi Devi Mundra Public School ***April 2019 – April 2020***
Secondary **(74.6%)** *Jodhpur, Rajasthan*

Certifications

- AWS Certified Cloud Practitioner, Amazon Web Services
- Meta Front-End Developer Specialization, Coursera
- Certificate of Completion – SQL, 365 Data Science
- Certificate of Completion – Introduction to Data and Data Science, 365 Data Science
- Core Java, Open Innovations Lab

Extra Curricular

Founder ***September 2023 – December 2024***
JIET Entrepreneurship and Start-up Cell, JIET

- Organized startup bootcamps and networking events, empowering 200+ students with entrepreneurial skills.
- Led the club to win the “Best Student Club” award for outstanding contribution to campus innovation.

Achievements

- Overall Branch Topper in B.Tech at JIET, Jodhpur
- Reliance Foundation Scholar, Reliance Foundation
